

VICTORY CORPS AT WAR

Logistics

C4

Major Accomplishments :

Sustained the more than 300,000 coalition Soldiers, Sailors, Airmen, Marines and contractors ■ Retrograded more than 12,000 pieces of

Class VII rolling stock, including 5,100 Humvees Installed more than 46,000 up-armored Humvee enhancements ■ Reduced container fees from \$500,000 per month in January 2006 to \$71,000 in December 2006 ■ Requisitioned more than 79,000 Nomex uniforms to better equip and protect Soldiers against the threats of fuel-related injuries ■ Transitioned more than 16 deploying brigade combat teams, 17 redeploying BCTs and nine corps separate brigades ■ Provided sustainment and support to 10 Iraqi army divisions

C6 Information Management

Major Accomplishments :

Initiated a system to track and resolve frequency interference issues, resulting in a drastic reduction of spectrum interference issues across the Iraq theater of operations, and refined the frequency management database to verify frequency assignments and free up unused frequencies ■ Designed,

supported and implemented the Iraq Ground Force Command operations center, and trained personnel to staff it ■ Developed signal support standard operating procedures for the IGFC command and control transition and established a viable partnership program between the IGFC and Multi-National Corps - Iraq information management divisions in accordance with MNC-I's transition engagement plans ■ Conducted the first partnership signal conference with the coalition's Iraqi counterparts ■ Completed an annex to MNC-I operational orders that defined signal transition team requirements and delineated their responsibilities ■ Completed the theater change management process for managing technical changes to the Multi-National Force-Iraq and MNC-I theater network
